DETAILED ACTION

Claims 1-28 is pending in this application.

Request for Continued Examination (RCE)

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 4, 2005 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on January 31, 2005 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Action Summary

3. The rejection of claims 1-4, 8, 9, 12, 13, 15-18, 20, 22 and 23 under 35 U.S.C. 102(a) over Desai is hereby withdrawn with respect to applicants' arguments that naproxen and naproxen sodium have the same analgesic characteristics.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should that changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul Lim on March 30, 2005.

Amend the claims as follows:

IN THE CLAIMS:

In claim 4, line 4, delete "carries" and insert "carrier"
line 4, delete "and, where appropriate, other compatible active substances"

In claim 16, line 2, delete "further"
line 4, delete "further"

In claim 21, line 3, delete "further"
line 14, delete "distinct" and insert "an analgesic different"

In claim 22, line 3, delete "further"
line 5, delete "further"

Statement of Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious an oral dosage form comprising a fixed combination of a locally acting analgesic (A) with rapid onset of action with at least one systemically

Art Unit: 1616

acting analgesic (B) with sustained action and wherein the A and B provide distinct active analgesic compounds. The closest prior art of Sriwongjanya et al. (6,156,342) teaches a controlled release dosage comprising an analgesic core and a coating that may contain a drug such as tramadol. The reference can't be used; as the filing date of the prior art is later than the priority date of the instant application. Other prior art references Desai and Hendrickson et al. (5,286,496) discloses composition comprising two analgesics, one having rapid release the other sustained release, however, the analgesics are the same and not different as required by claim 1 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

6. Claims 1-28 are allowed.
